

June 12, 2024

These minutes were not approved at last night's meeting. They left the building with a supervisor and the office Manager did not get them until she came in the Monday after the June meeting. It looks like things missing from the minutes because they do not make sense when reading them.

Gary Harmon did not vote because he was not at the June meeting.

Heath Ohnmeiss said he did not approve of the minutes due to them leaving the building and that it looks like parts of conversations are missing.

Denise Artley said that she took them home and did not vote one way or the other.

Gwen Pidcoe also was not at the meeting and did not take the minutes.
