

# **MUNCY TOWNSHIP FIRE COMPANY FACILITY MATTER STATUS UPDATE**

The Township continues to cooperate with all parties regarding the recent sewer backup incident affecting the Fire Company facility.

Relevant lease materials and facility records have been provided for insurance review, and insurance carriers have been notified and are evaluating matters within their respective coverages.

The Township has not directed the Fire Company to refrain from undertaking cleanup, remediation, or restoration activities. The Township's position has been that questions regarding responsibility for payment and reimbursement should be addressed through the applicable lease, insurance, and legal review processes.

The Township remains willing to coordinate regarding access, inspection, maintenance review, and protection of Township-owned property.

The Township's position regarding responsibility and liability has not changed.

The Township remains committed to handling the matter professionally, cooperatively, and through the appropriate insurance, contractual, and legal processes.

As the matter is currently being addressed through those channels, the Township does not anticipate further public comment unless circumstances materially change.
